
Executive Summary: FNP Sales Analysis Dashboard

This dashboard presents a comprehensive overview of FNP's sales performance, offering insights to inform strategic planning across marketing, inventory, and operations. The data spans across time-based trends, product and category performance, customer behavior, and geographical reach.

Key Performance Metrics:

- 💰 **Total Revenue:** \$3,520,984.00
 - 🛒 **Total Orders:** 1,000
 - 💵 **Average Spending per Order:** \$3,520.98
 - 🚚 **Average Order-to-Delivery Time:** 5.5 Days
-

Core Insights:

Revenue by Month:

- Notable revenue peaks were observed in **February** and **August**, indicating successful campaigns or high seasonal demand during these periods.
- The trendline reflects a **slight overall downward slope**, signaling inconsistent monthly performance that may benefit from better promotion planning or demand forecasting.

Top Performing Products:

- *Magnam Set*, *Dolores Gift*, and *Quia Gift* stood out with revenue figures exceeding \$100,000 each.
- These products should be prioritized in promotional campaigns and inventory management due to their high consumer appeal.

Revenue by Hour (Orders):

- Sales peaked between **3 PM and 7 PM**, suggesting this is the prime time for customer engagement and conversions.

- Optimizing ad spend and promotional pushes around these hours may drive higher sales.
-

Category & Occasion Insights:

Revenue by Category:

- **"Colors"** emerged as the top-performing category, bringing in nearly **\$1,000,000**, followed by **Sweets** and **Soft Toys**.
- This suggests a strong demand for festive and vibrant product themes, potentially linked to cultural or seasonal events.
- Lower-performing categories like **Plants** and **Raksha Bandhan** could benefit from revised offerings or targeted campaigns.

Revenue by Occasions:

- **Anniversary** and **Raksha Bandhan** were the highest revenue-generating occasions (~\$700,000 each), followed by **Holi** and general **All Occasions**.
 - The data highlights the importance of occasion-based marketing strategies, especially for festivals and personal milestones.
-

Regional Sales Distribution:

🏠 Top 10 Cities by Orders:

- **Imphal** tops the chart with the **highest number of orders**, followed by **Dhanbad**, **Kavali**, and **Dibrugarh**.
 - These cities demonstrate strong engagement and present opportunities for localized marketing and improved logistics, especially in tier-2 and tier-3 cities.
-

Strategic Recommendations:

1. **Capitalize on high-performing months** like February and August with pre-planned campaigns.
2. **Feature top products** like *Magnam Set* and *Dolores Gift* across sales channels.
3. **Focus marketing on the "Colors" category**, leveraging its success during festive periods.

4. **Enhance targeting during peak hours** (3 PM–7 PM) with time-sensitive promotions.
 5. **Invest in top-performing cities** such as *Imphal* and *Dhanbad* to strengthen regional dominance and customer loyalty.
